

Play

flex[®]

CUSHION

Surface for indoor and outdoor tennis courts. High elasticity and impact absorption are the main characteristics of this system.

Play-Flex Cushion[®] Structure

Layers and kg/Sqm

- A: Strong foundation base
- B: 1° Play-Flex[®] base.....1,0 kg
- C: Cushion 0,5 kg
- D: Cushion0,5 kg
- E: Cushion 0,5 kg
- F: 2°Play-Flex[®] base..... 0,5 kg
- G: Play-Flex[®] top 0,5 kg
- H: Lines 5,0 kg

The synthetic resin compound with intermediate rubber granulate layer gives the flooring excellent elasticity and resilience, thus improving ball bounce and reducing joint traumas. It's certified ITF - Class 3 (medium).
